

Dhirendra Kumar

Frontend Developer

Lucknow, India | (+91) 8604390422 | dhirendra9032@gmail.com | github.com/dhirendrakumar9032 | linkedin.com/in/dhirendrakumar95

PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years of experience developing scalable SaaS web applications using React.js, TypeScript, JavaScript, Redux Toolkit, and Next.js. Skilled in frontend architecture, reusable component libraries, AG Grid dashboards, REST API integrations, responsive UI development, and Core Web Vitals improvement. Delivered production-grade applications for enterprise clients with strong focus on accessibility, cross-browser compatibility, performance, maintainability, and Agile collaboration.

TECHNICAL SKILLS

React & Frontend: React.js, Next.js, TypeScript, JavaScript ES6+, Vue.js, React Hooks, Custom Hooks, SPA, SSR, SSG, Micro Frontend

State & APIs: Redux Toolkit, Zustand, React Query, Context API, REST APIs, Axios, Fetch API, Authentication, Authorization

UI & Data: Material UI, Ant Design, Tailwind CSS, Styled-Components, SCSS, HTML5, CSS3, AG Grid, D3.js, Chart.js, FullCalendar

Quality & Delivery: Jest, Vitest, React Testing Library, Cypress, Vite, Webpack, Babel, ESLint, Prettier, Storybook, Git, GitHub, CI/CD, JIRA, Figma, AWS, Azure

PROFESSIONAL EXPERIENCE

Frontend Developer II | JLL Technologies

March 2025 - Present

Remote

- Architected the RELM real estate management platform from scratch using **ReactJs** and **Redux Toolkit** for an enterprise production use case, supporting a live client workflow for Chick-fil-A.
- Engineered **AG Grid** dashboards with virtualization, filtering, pagination, and search for large datasets, improving table responsiveness by **30%**.
- Accelerated page performance by **35%** through lazy loading, memoization, bundle optimization, and Core Web Vitals improvements.
- Connected **20+ REST API** workflows with reusable service layers, loading states, error handling, and scalable async data contracts.
- Created **15+** reusable UI components for forms, tables, charts, and calendars, reducing duplicate UI work across feature modules.
- Launched charting and calendar workflows using React-Google-Charts and FullCalendar, improving task and event visibility by **20%**.
- Reviewed pull requests, resolved production UI issues, and contributed to sprint planning across a **6+** member Agile team.

Software Engineer | Qapita Fintech India Pvt. Ltd.

January 2022 - March 2025

Hyderabad, India

- Delivered **10+** major frontend features for Qapita's Qapmap B2B SaaS platform, supporting ESOP and CapTable workflows for global enterprise customers.
- Engineered AG Grid dashboards with virtualization and rendering controls, increasing large-dataset performance by **40%**.
- Spearheaded a **Storybook** component library with **40+** shared components, reducing repeated UI development effort by **40%**.
- Strengthened frontend performance using **React Profiler**, memoization, **Redux Toolkit** improvements, and code splitting, improving page interactions by **10%**.
- Adopted **React Query** for server-state caching and request deduplication, reducing redundant API calls by **5%**.
- Validated critical flows with **Vitest** and **React Testing Library**, increasing test coverage and reducing regression defects by **30%**.
- Modernized legacy modules into smaller reusable components, reducing frontend technical debt by **20%** and improving maintainability.
- Partnered with product managers, designers, and backend engineers across **2-week** sprints to deliver scalable SaaS features on time.

PROJECTS

Coding Interview Preparation Platform | GitHub: github.com/dhirendrakumar9032

- Created a coding practice platform with **25+ JavaScript** DSA problems and **React** machine-coding challenges.
- Added **Monaco Editor**-based coding experience with live preview support for **React** and **JavaScript** exercises.
- Structured reusable components, editor configuration, and preview modules to simplify future language support.
- Tuned rendering and state updates using memoization to improve editor responsiveness during code changes.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science & Engineering

July 2017 - May 2021

Dr. A.P.J. Abdul Kalam Technical University, Lucknow, Uttar Pradesh

CGPA: 7.3 / 10.0
